Art Unit: 1644

DETAILED ACTION

1. The Art Unit location and the examiner of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Maher Haddad, Art Unit 1644, Technology Center 1600.

2. Applicant's amendment, filed 9/25/01 (Paper No. 7), is acknowledged. Claims 14, 15 and 22 have been amended. Claims 1-25 are pending.

Sequence Compliance

3. The instant application appears to be in sequence compliance for patent applications containing nucleotide sequence and/or amino acid sequence disclosures.

Restriction Requirement

4. Please Note: In an effort to enhance communication with our customers and reduce processing time, Group 1640 is running a Fax Response Pilot for Written Restriction Requirements. A dedicated Fax machine is in place to receive your responses. The Fax number is 703-308-4315. A Fax cover sheet is attached to this Office Action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact Paula Hutzell, Ph.D., Supervisory Patent Examiner at Paula.Hutzell@uspto.gov or 703-308-4310. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to Written Restrictions.

Application/Control Number: 09/732,754

Art Unit: 1644

5. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

- I. Claims 1 and 20-24, drawn to a method of inducing an immune response and a method of stimulating T-lymphocyte response using a lipid-tailed polypeptide SEQ ID NO: 1, classified in Class 424, subclass 192.1.
- II. Claims 1-9, 15 and 23-24, drawn to a method of inducing an immune response and a method of stimulating T-lymphocyte response using a lipid-tailed polypeptide SEQ ID NO: 2, classified in Class 424, subclass 192.1.
- III. Claims 1-9, 15 and 23-24, drawn to a method of inducing an immune response and a method of stimulating T-lymphocyte response using a lipid-tailed polypeptide SEQ ID NO: 3, classified in Class 424, subclass 192.1.
- IV. Claims 10-14, 16-19 and 25, drawn to a composition comprising lipid tailed polypeptide or peptide SEQ ID NO: 1; classified in Class 530, subclasses 359.
- V. Claims 10-14, 16-19 and 25, drawn to a composition comprising lipid tailed polypeptide or peptide SEQ ID NO: 2; classified in Class 530, subclasses 359.
- VI. Claims 10-14, 16-19 and 25, drawn to a composition comprising lipid tailed polypeptide or peptide SEQ ID NO: 3; classified in Class 530, subclasses 359.
- 6. Groups IV-VI and I-III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05 (h)). In this instant case, products can be used in a materially different process such as immunogen to make antibody.
- 7. These inventions are distinct for the reasons given above. In addition, they have acquired a separate status in the art as shown by different classification and/or recognized divergent subject matter. Further, even though in some cases the classification is shared, a different field of search would be required based upon the structurally distinct products recited and the various methods of use comprising distinct method steps. Therefore restriction for examination purposes as indicated is proper.
- 8. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Application/Control Number: 09/732,754

Art Unit: 1644

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maher Haddad whose telephone number is (703) 306-3472. The examiner can normally be reached Monday through Friday from 8:00 AM to 4:30 PM. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (703) 308-3973. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center 1600 receptionist whose telephone number is (703) 308-0196.

Papers related to this application may be submitted to Technology Center 1600 by facsimile transmission. Papers should be faxed to Technology Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CM1 Fax Center telephone number is (703) 305-3014.
